ESTABLISHED 1958

September 21, 2009

To Whom It May Concern:

We recently moved our physical business location after a decade of being in the same location. Most everything associated with the move and construction of our new space was totally new to me. Picking out vendors that could really keep me informed and confirm every step of the way that we were all on the same page was NEEDED!

Convey Communications certainly fit the bill. Starting with the salesperson's helpful approach to the staff on site, carrying out the cabling project, and keeping me informed along the way. I definitely learned a lot in the process. Convey provided the Voice, Data and TV cabling at our new location.

The cabling project was completed within the indicated time frame and was done to our requested specifications. I would definitely recommend Convey Communications as a vendor for Structured Cabling services.

Sincerely,

HARRISON ASSOCIATES, PC
