

To Whom It May Concern:

I would like to recommend Convey (Kirk Owens) as a highly talented Organization. I contracted them to wire our Tulsa location. They wired the building for phone and data. The time line provided was dead on. The quality of the work was exemplary! Because of the quality of work, I've awarded Convey several projects at Sysco. If you have additional questions please contact me at knox.larry@ok.sysco.com or Tim Bartee bartee.tim@ok.sysco.com
